Why exhibit at **Seatrade Cruise Global 2023?**

Seatrade Cruise Global (SCG) is the only trade show that gathers all the cruise lines. Throughout 2021, cruise ship fleet capacity continued to expand due to newbuild deliveries. The trend is set to continue into 2022 and beyond. The new ships are more energy efficient than previous generations. More LNG-fueled ships will be introduced, and other alternative fuels are also being explored. This year we will see the first installations of fuel cells to be tested onboard, and some expedition vessels are already in hybrid mode with dual fuel engines and energy storage systems. Join us at SCG to take part in this journey!

The **Team Norway Pavilion** have **an excellent location** facing the main hallways.

The pavilion will be branded under the official **Norway-profile** highlighting our companies' connection to each other and to Norway. This **strengthens our brands** and **create synergies**.

In addition, we provide **room for individual profiling** of each stand, which can be coordinated with our stand contractor.
