Why exhibit at **Kormarine 2023**?

At Kormarine you get the opportunity to meet and network with the decision makers from Korea's top shipyards. Korean and Chinese shipyards have long been trying to get the upper hand against each other in the contest of dominating the modern shipbuilding industry. As of now South Korea has the lead. By the end of July 2022 Korean shipbuilders had won 55% of the total orders by tonnage. Leaving their backlog made up of orders for a total of 204 ships. You can read more about the Korean market situation [here](#).

The **Team Norway Pavilion** have **an excellent location** close to the main entrances in Hall 1 and Hall 2 as shown on the hall map to the right.

The pavilion will be branded under the official **Norway-profile** highlighting our companies' connection to each other and to Norway. This **strengthens our brands** and **create synergies**.

In addition, we provide **room for individual profiling** of each stand, which can be coordinated with our stand contractor.
